

REMARKS

In the Office Action dated July 26, 2007, the Examiner imposed three election of species requirements.

In a first election of species requirement, the Examiner required election between two species each corresponding to one of claim 108 and 109. In response, applicants hereby elect the species corresponding to claim 108.

In a second election of species requirement, the Examiner required election between nine species each corresponding to one of claims 111-119. In response, applicants hereby elect the species corresponding to claim 111.

In a third election of species requirement, the Examiner required election between two species each corresponding to one of claim 133 and claim 138. In response, applicants hereby elect the species corresponding to claim 138.

Applicants note that the Examiner has, for each of the three election of species requirements, correctly identified a generic claim. Upon allowance of the generic claims, applicants request consideration of claims to unelected species.
